ENERGY IN THE NEWS;

New national policy targets geothermal energy usage; Uganda has released a revised draft of the National Energy Policy, which seeks to replace the older one of 2002, by, among other things, embarking on strategies that can promote new forms of energy such as solar and geothermal power. By promoting the supply of new energies, government says the new policy will also focus on growing domestic demand and tapping into regional markets. The idea of growing demand is partly to influence a drop in power tariffs. [Story](#)

NATIONAL;

First Lady opposes Museveni's sanitary towel pledge; Janet told MPs that she doesn't agree that government should be providing sanitary pads to students anyway, but that if the government is to do it, then it must be done in a sustainable way through a well as funded national project. In the past, Janet has said provision of school lunch and pads should a responsibility of the parents and not government. [Story](#)
