## **33KV SUBSTATION SHUTDOWN AT NALUBAALE POWER STATION**

This is to communicate that Eskom Uganda Limited will carry out an emergency shutdown of the 33kV substation at Nalubaale Power Station on Tuesday 22nd December 2020 from 12:00am (midnight) to 05:00am and Wednesday 23rd December 2020 from 08:00am to 05:00pm.

This is to enable execution of critical works on the generating units associated with 33kV Substation which hosts Generation and Distribution Assets. The 132kV Substations for Nalubaale and Kiira Power Stations will remain available.

The 33Kv substation serves Jinja City and therefore the whole of Jinja will experience power shutdown at those times.

We regret all the inconveniences that this may cause and request that you plan your activities accordingly.
