RESTRICTION OF TRAFFIC AT OLD NILE BRIDGE

Eskom Uganda Limited (EUL) would like to inform the public that there are ongoing civil works at the Nalubaale Power Plant and as a result, part of the Old Nile Bridge will be partly closed off to traffic from **22nd March to 30th August 2021** to ensure safety of the public and the safe execution of the ongoing works. Measures for traffic control and safety of motorists and pedestrians using the bridge have been put in place.

During this time, only half of the road on the bridge will be usable, which may cause traffic hold ups for cycling and foot traffic who mostly use the bridge.

We would like to request that you plan your travel with this in mind.

We apologize for any inconveniences caused during this time.
